

**Discerning a response to the challenges, needs and opportunities
in spiritual direction supervision:
A conversation to gather wisdom from the Australian spiritual direction
community.**

*“Supervision of spiritual directors is unique because it contains a contemplative component
and focuses on discerning interior movements”*

Maureen Conroy, Looking into the Well: Supervision of Spiritual Directors, xviii.

The Australian Ecumenical Council for Spiritual Direction invites you to a one-day forum on supervision for spiritual directors. This conversation will be of interest to formation programs, individual spiritual directors, and supervisors. It is an opportunity to share our current experiences and listen to one another regarding future possibilities for this important aspect of our ministry. We hope to identify emerging needs for supervision training and provision, and to discern how together we can support the development of, and access to, high-quality supervision for all those involved in the ministry of spiritual direction.
